

# SimpLink®

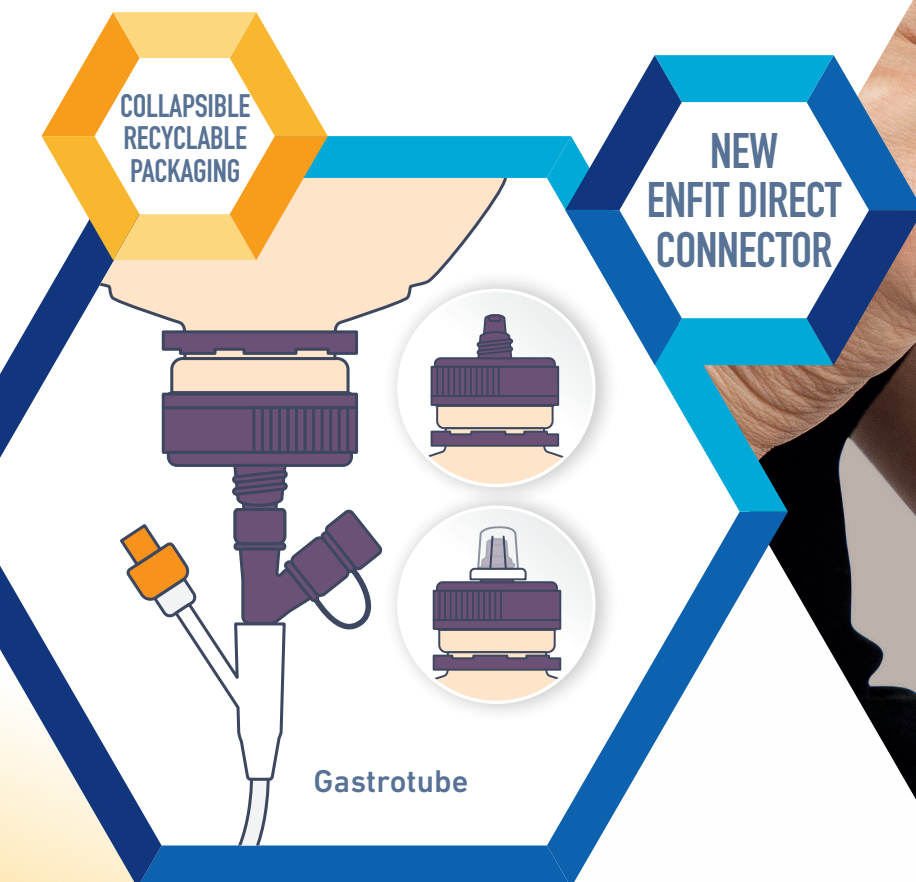

*Bolus technique*

At Nestlé Health Science, we have a strong history of firsts and pioneering innovations. Today we provide you with SimpLink®, the first direct bolus system.

## SimpLink®: Connect & Feed

### Smartflex® 250mL

- ENFit for safe connection with feeding tube
- Direct bolus feeding
- No further accessories needed

# SimpLink®: ensures nutrition goals & enables a better quality of life.

## INCREASED RELIABILITY of nutrition delivery

- Less risk of spillage
- Potential less risk of contamination
- Less probability of nutrition waste (adequate bolus volume)

## MORE FREEDOM for patients and caregivers

- More autonomy
- Less time spent administering feeding
- Convenience for feeding outside of home
- Highly portable
- Easy to use

SimpLink®  
IMPROVES
