

K·QuikTM

K·Quik

ACBS GMS PBS

Description

Food for special medical purposes

K.Quik is a ready to use, liquid emulsion of medium chain triglycerides (MCT).
With sweetener.

Indications

For the dietary management of conditions requiring a source of medium chain triglycerides (MCT) including use in the ketogenic diet.

Recommended Intake and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

Preparation Guidelines

Shake well before use.

Best served chilled.

Further serving suggestions and recipes for K.Quik are available on request.

IMPORTANT NOTICE

Use under medical supervision.

Not suitable for use as a sole source of nutrition.

Suitable from 3 years of age onwards.

Not suitable for people with medium chain acyl-CoA dehydrogenase deficiency (MCADD).

For enteral use only.
