

**PRO-CAL™**  
**POWDER**

ACBS  GMS

### Description

#### Food for special medical purposes

Pro-Cal *powder* is a powdered, neutral-tasting oral nutritional supplement that can be added to a variety of foods and drinks to increase the energy and protein content with minimal effect on taste, volume and texture. It is a blend of fat, carbohydrate and protein.

### Indications

Pro-Cal *powder* is for the dietary management of disease related malnutrition, malabsorption states and other conditions requiring fortification with a fat/carbohydrate supplement (with protein).

### Recommended Intake and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

15g of Pro-Cal *powder* = 100kcal and 2g protein

### Preparation Guidelines

Add Pro-Cal *powder* to food and drinks and stir well until the powder is fully mixed in.

Not suitable for addition to fruit juice or cold water.

Add 1-2 sachets or 1-2 level scoops per serving.

The product should be freshly prepared and consumed immediately. If this is not possible, all prepared products must be tightly covered, refrigerated and consumed within 24 hours.

Discard any unfinished heated product.

Serving suggestions for Pro-Cal *powder* are available on [www.yournutritionssupport.co.uk](http://www.yournutritionssupport.co.uk) or on request.

### IMPORTANT NOTICE

Use under medical supervision.

Not suitable for use as a sole source of nutrition.

Suitable from 3 years of age onwards.

For enteral use only.
